Word Explanation

CE: Casual Engine

Microsoft .NET Framework: It is the platform for new kind of software to run on. It is the heart of Windows operating system.

Parameter

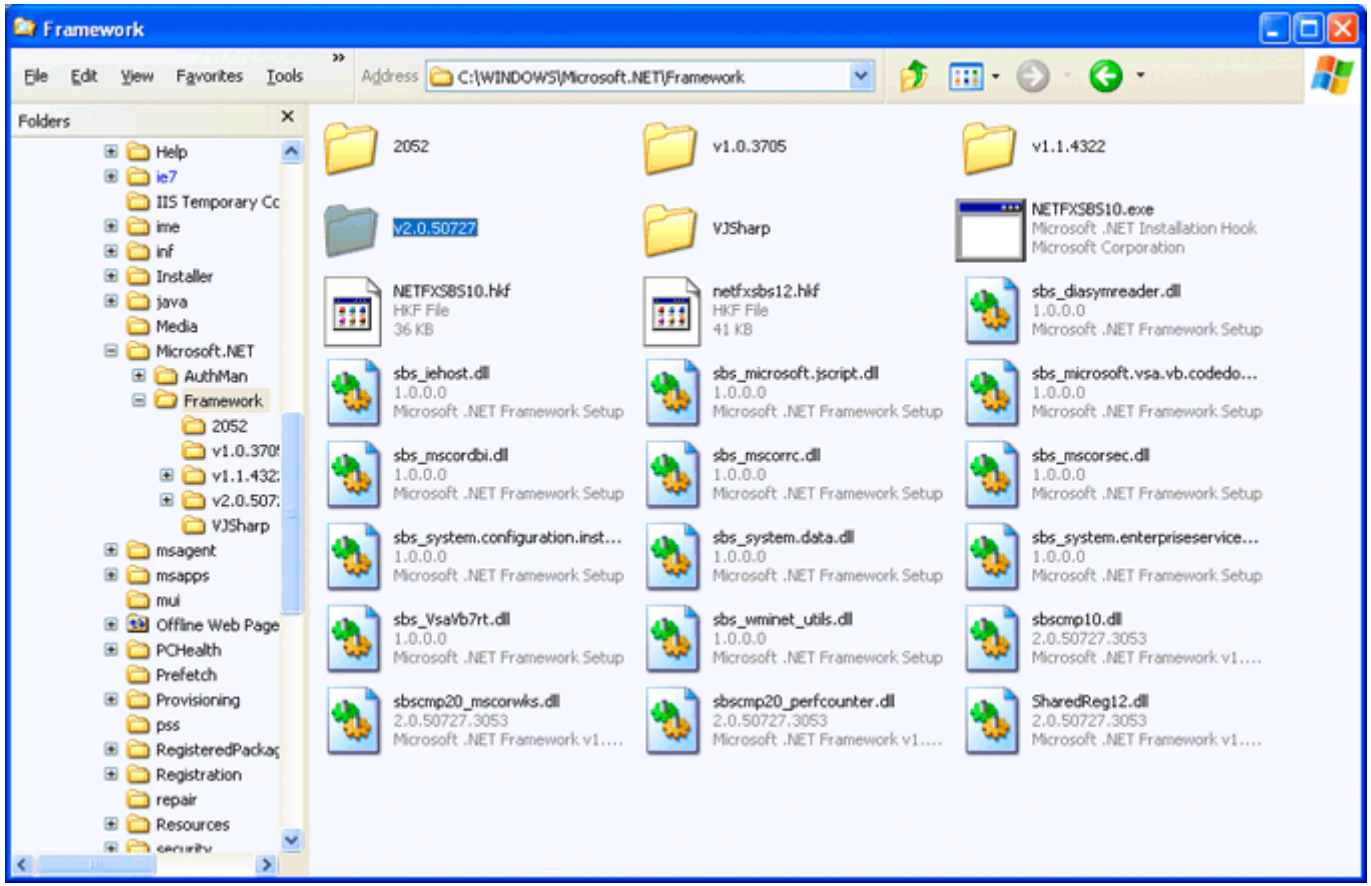
Fee: 0.00 US dollar. This software is totally free for enterprises and individuals. Besides, it is free for governments, charities, hospitals, universities and other organizations. Vitally, you can directly copy and include it in your commercial products and services for free. You just need to provide a link to this Website. The URL is:
http://www.casualengine.com/

Version: 1.0
Operating System: It does not support Linux. It supports:
Windows 7/Vista/XP/2000/98. Vitally, it supports Windows Server 2008/2003/2000 and their R2 editions.

CPU: 400MHz. You can definitely run this software if your computer can start.
RAM: 12MB.
Hard Disk: 24KB. You do not have to worry about the hard disk at all.

Installation

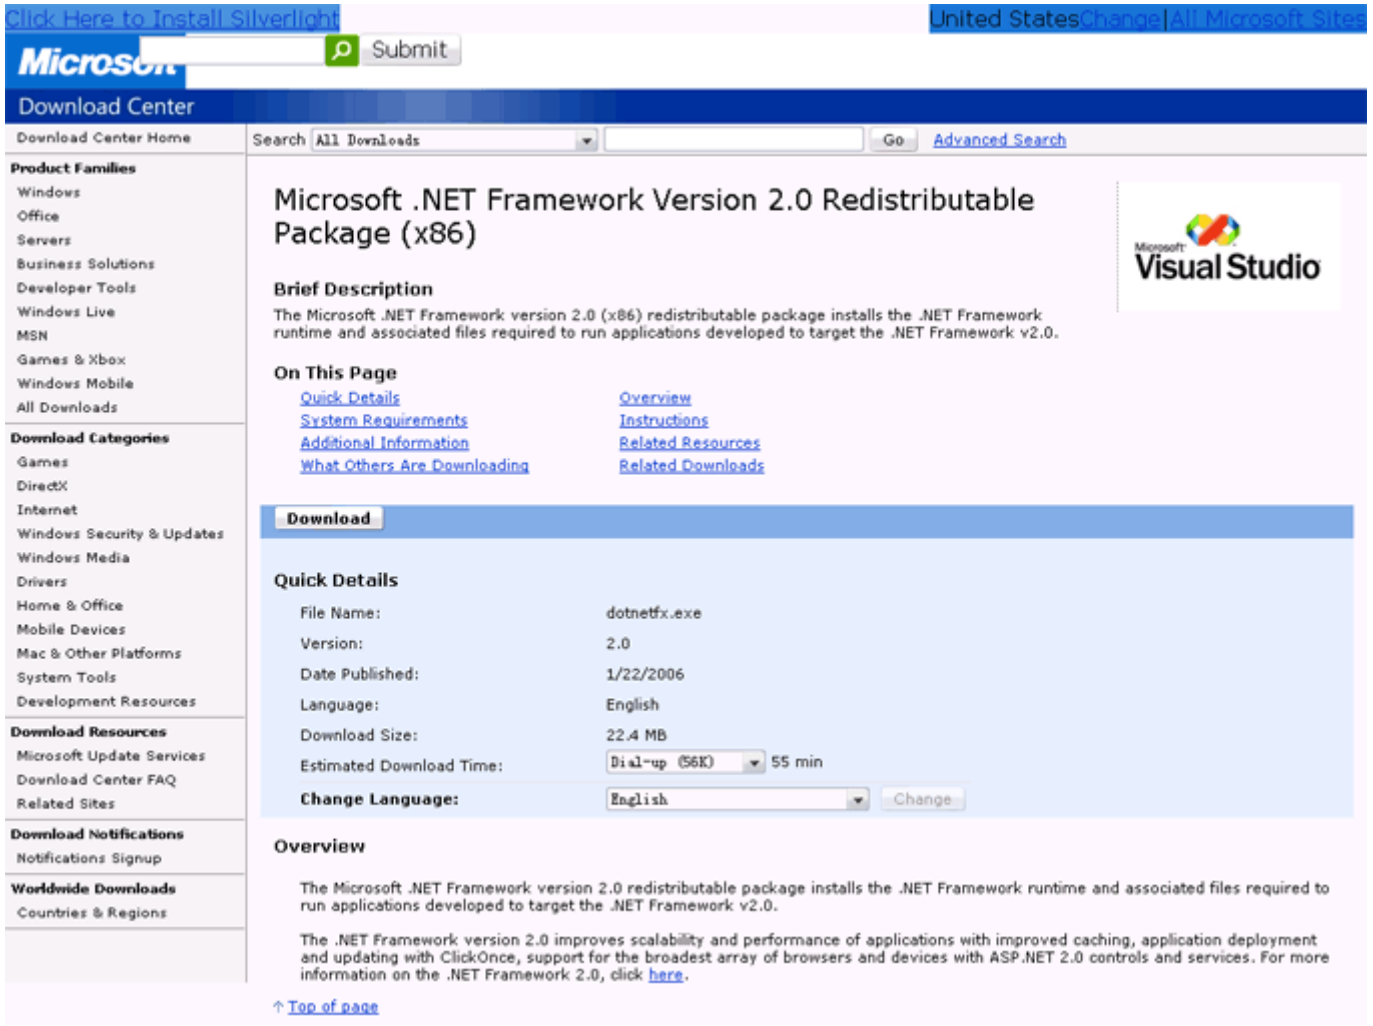
Notice that this software requires *Microsoft .NET Framework* 2.0 and SP2. You have to install them first.



To see whether your computer has already installed this platform. You can check your computer.

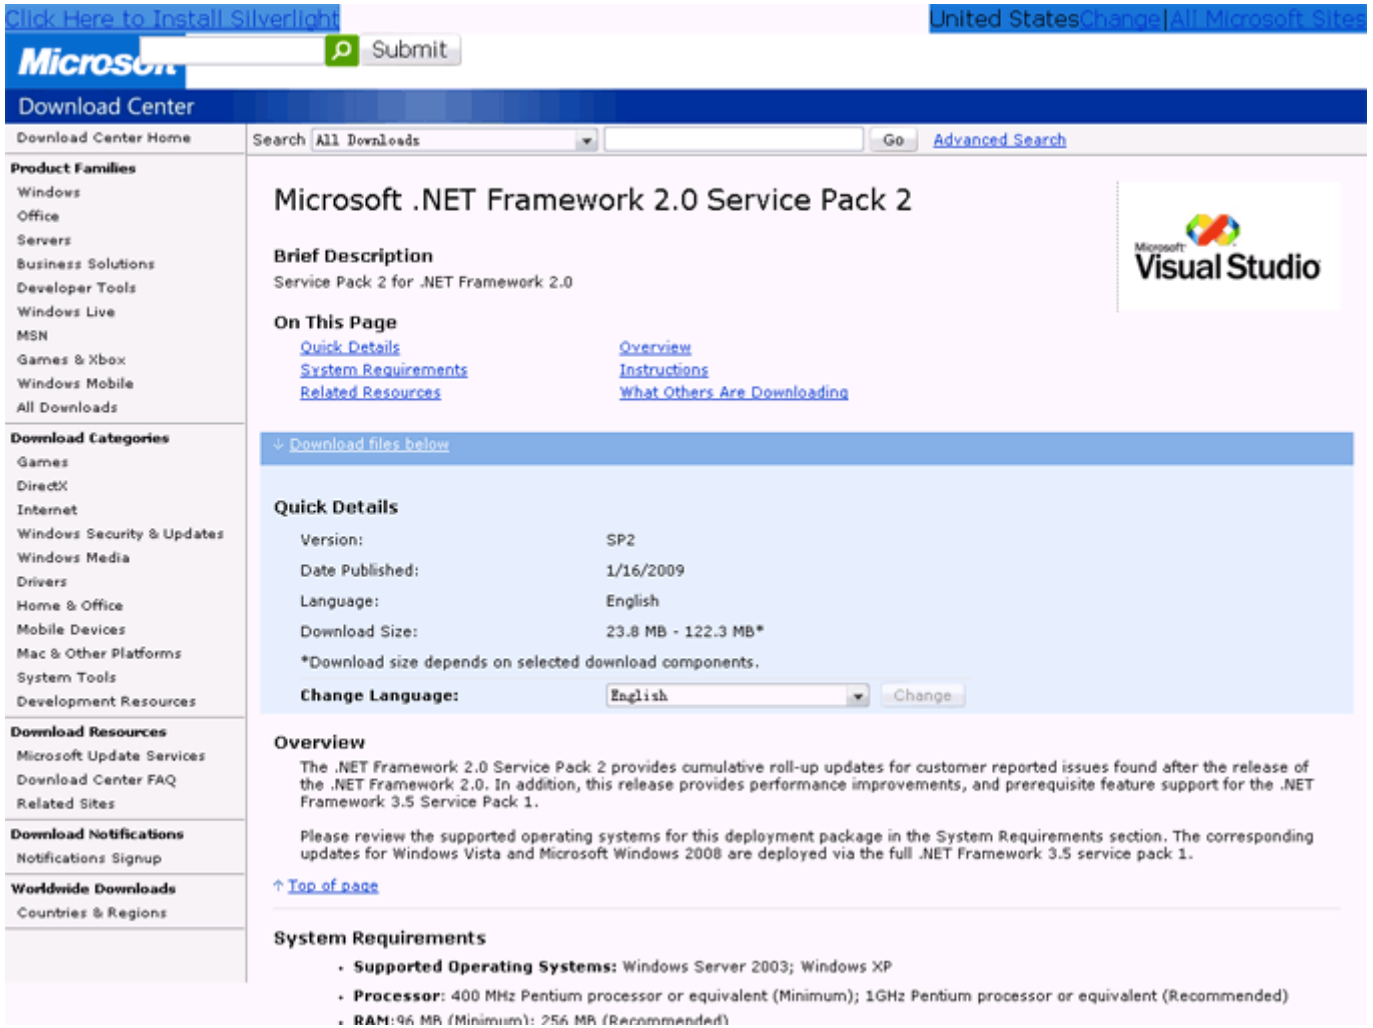
C:\WINDOWS\Microsoft.NET\Framework

You can see the folder: **v2.0.50727**. If you cannot find it, you have to go to Microsoft Download Center to download and install them.



Please download *Microsoft .NET Framework Version 2.0 Redistributable Package.* This image shows its 32 bit edition. You should download its 64 bit edition if your computer is 64 bit. This is the platform for new kind of software to run on. The URL is:

http://www.microsoft.com/downloads/details.aspx?FamilyID=0856eacb-4362-4b0d-8edd-aab15c5e04f5&DisplayLang=en



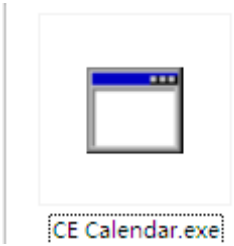
Then, you have to download its SP2: *Microsoft .NET Framework 2.0 Service Pack 2*. The URL is: **http://www.microsoft.com/downloads/details.aspx?FamilyID=5b2c0358-915b-4eb5-9b1d-10e506da9d0f&DisplayLang=en**

Tip: *Microsoft .NET Framework* 2.0 and SP2 are extremely important for new kind of software. CE

strongly recommends you to save them in your flash drive and portable hard disk. You do not have to access the Internet and download them repeatedly, if you use other computers. Many computers have not yet installed them by default.

After installation of the *Microsoft .NET Framework* 2.0 SP2 platform, you can unpack the .zip file and open the folder. It has two editions: *USB* and *Installation*.

The USB edition does not require installation at all. You can simply click **CE Calendar.exe** to run this software. It does not write data into Windows Registry or hard disk at all. It just runs on the memory temporarily. Besides, after closing the software, it will be totally removed from your computer.



It supports 32 and 64 bit systems at the same time.

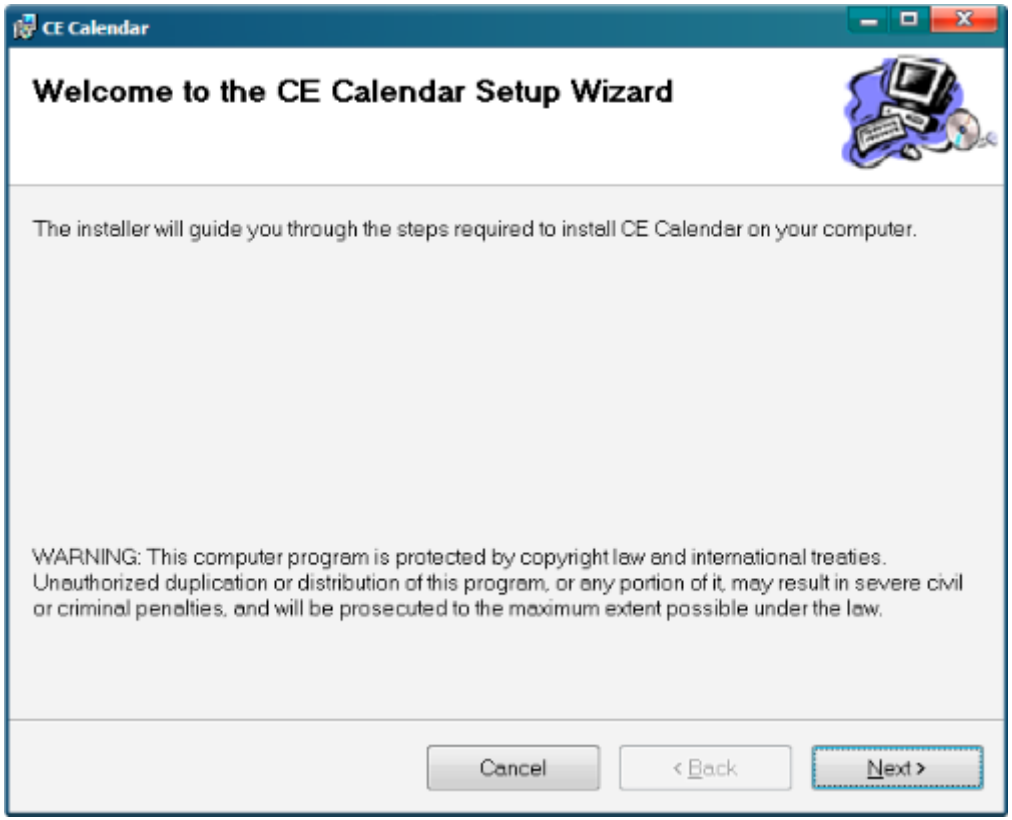
It does not contain icons. Therefore, it uses the default icon of *Windows* operating system. Indeed, it looks ugly. You should complain about Microsoft Corporation. Note that it is not virus. You should not mistake it later. You should save it in your flash drive or portable hard disk.

The USB edition is quite useful if you use other people's computers. It is impolite to install software in computers of your friends. Similarly, you may not be allowed to install any software in office or other public computers, because these computers have been locked. You can still use this software if you use the USB edition. Definitely, to use this software, you have to persuade the owners to install the *Microsoft .NET Framework* 2.0 SP2 platform first.

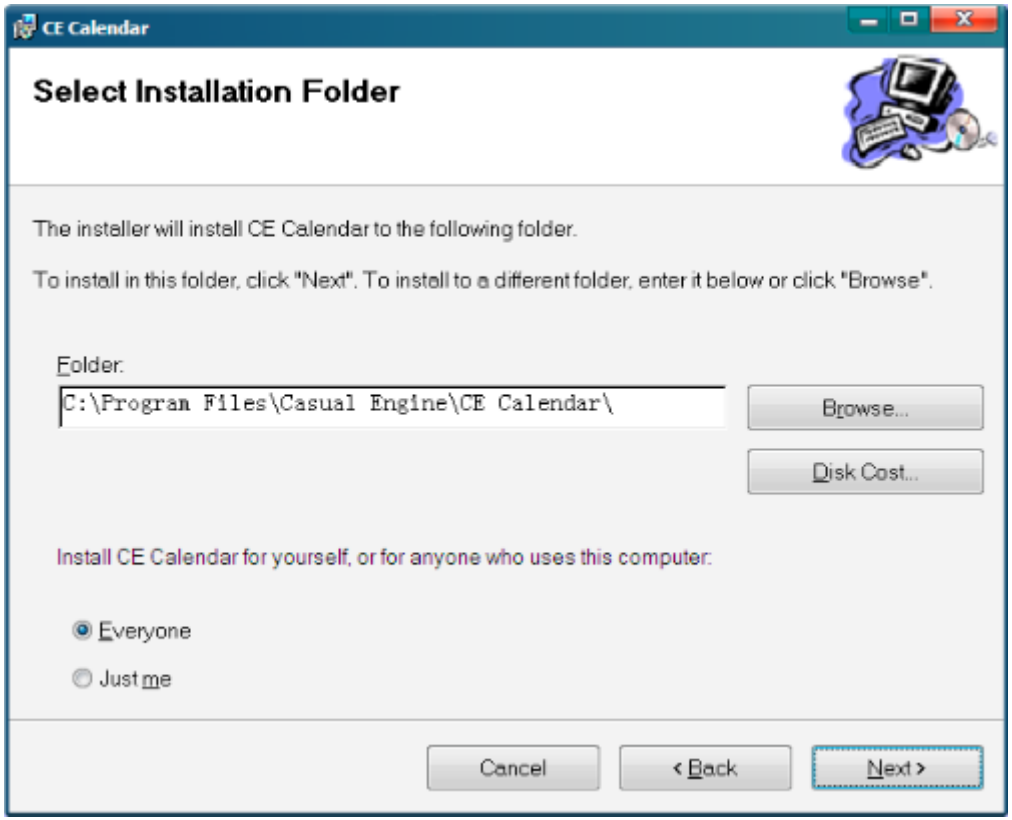
Definitely, you can install the software directly, if you are using your own computer.

Then, you have to choose the system first. x86 means 32 bit while x64 means 64 bit.

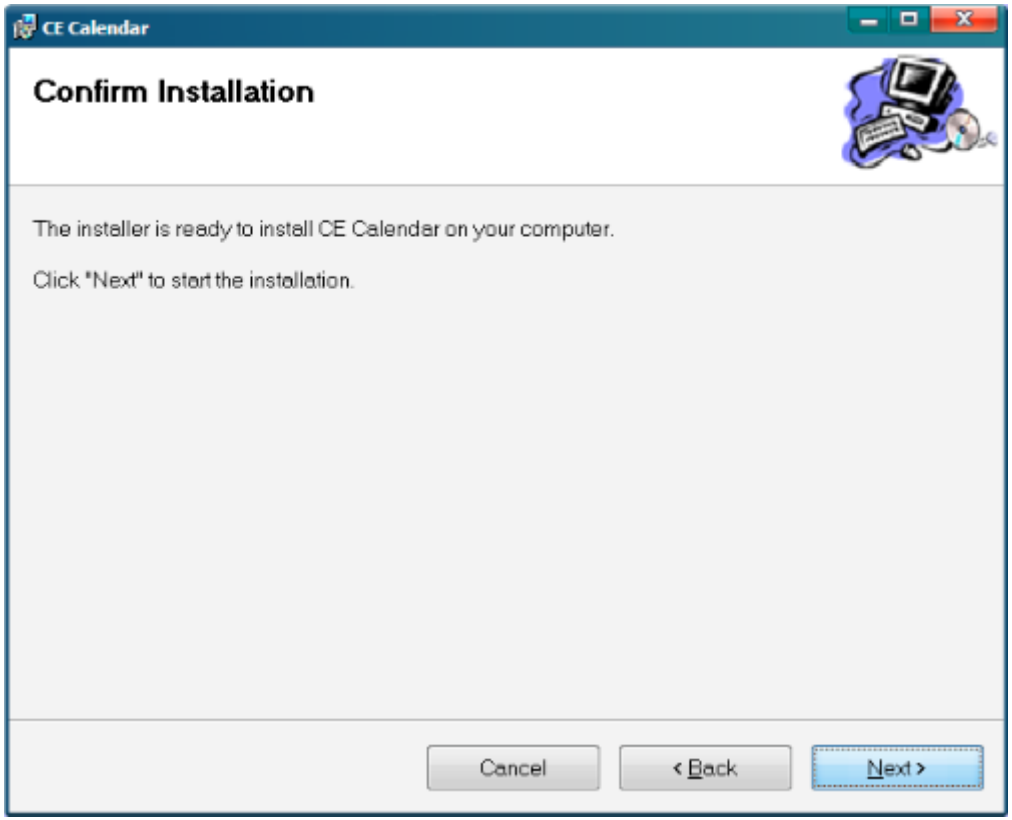
For example, you can click **Setup86.msi** to install it if your computer is 32 bit.



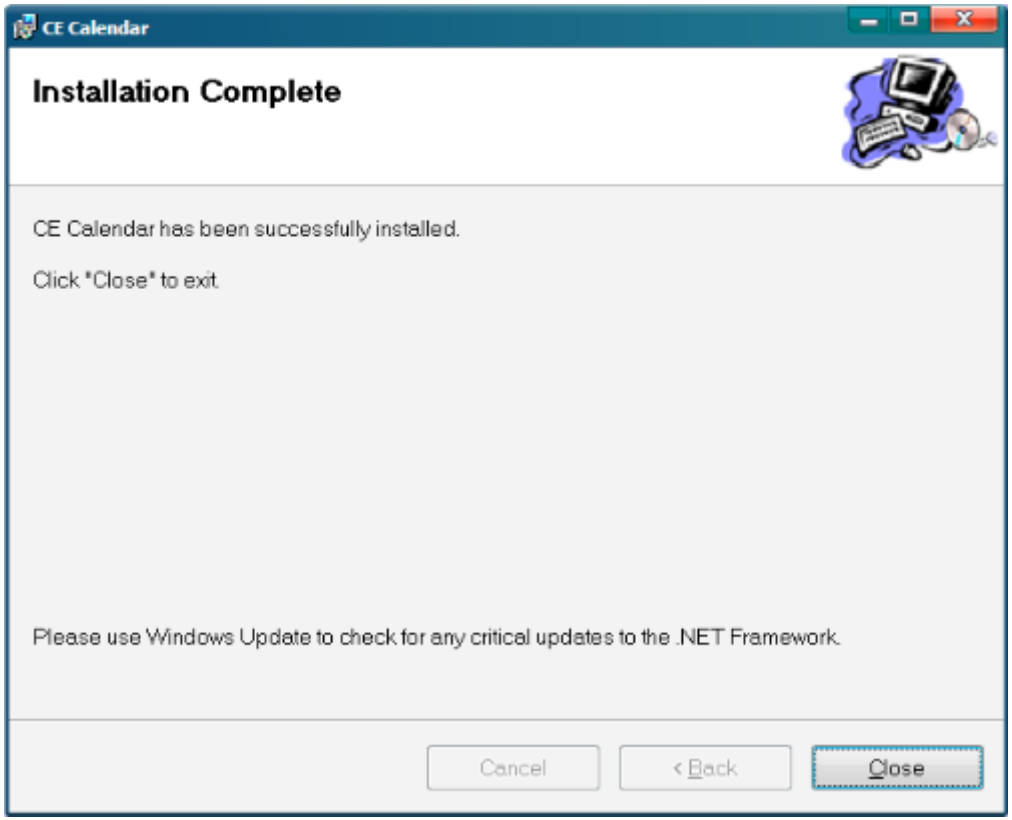
This is the wizard of installation. Click “Next” button.



Usually, you do not have to change the folder. Besides, everyone can use it by default. Click “Next” button again.



Finally, you can click “Next” button to start installation.



After installation, you can close this wizard. It has been installed in your computer successfully. You can start the software on [Start] menu.

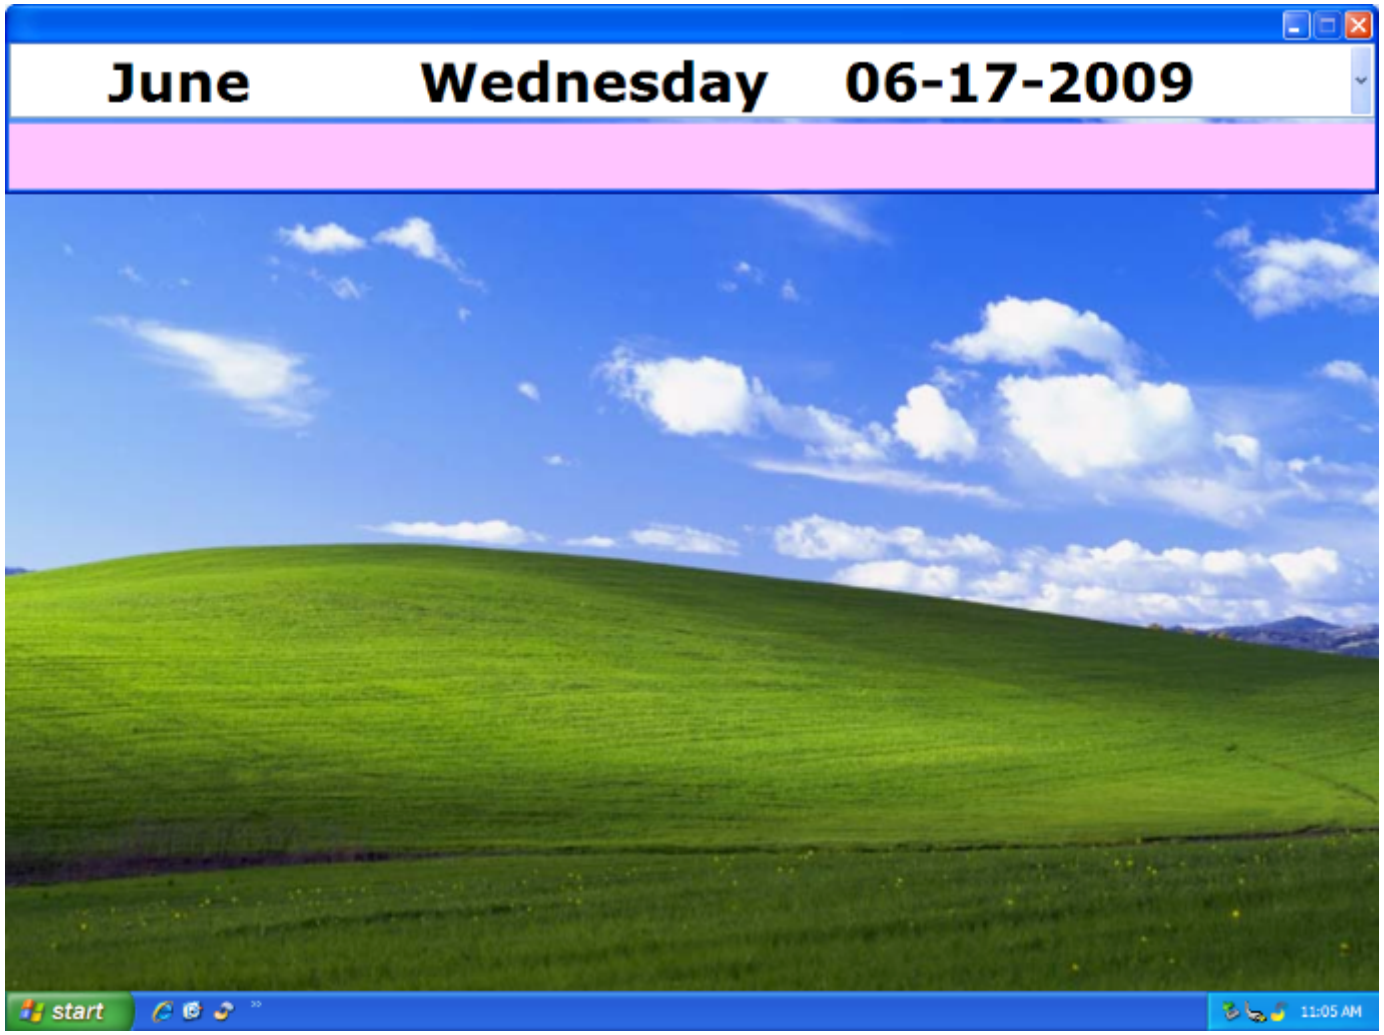
Preface

Much calendar software is on the market. However, nearly all of them are designed for individuals. They are quite flaring and are used to decorate the computer desktops of individuals.

These calendars are not useful and reliable. To see current date, every one can use his or her cell phone directly, without using computer software. However, enterprises have to see previous dates to check order forms or tables of databases. Besides, they have to plan future schedules for various commercial projects.

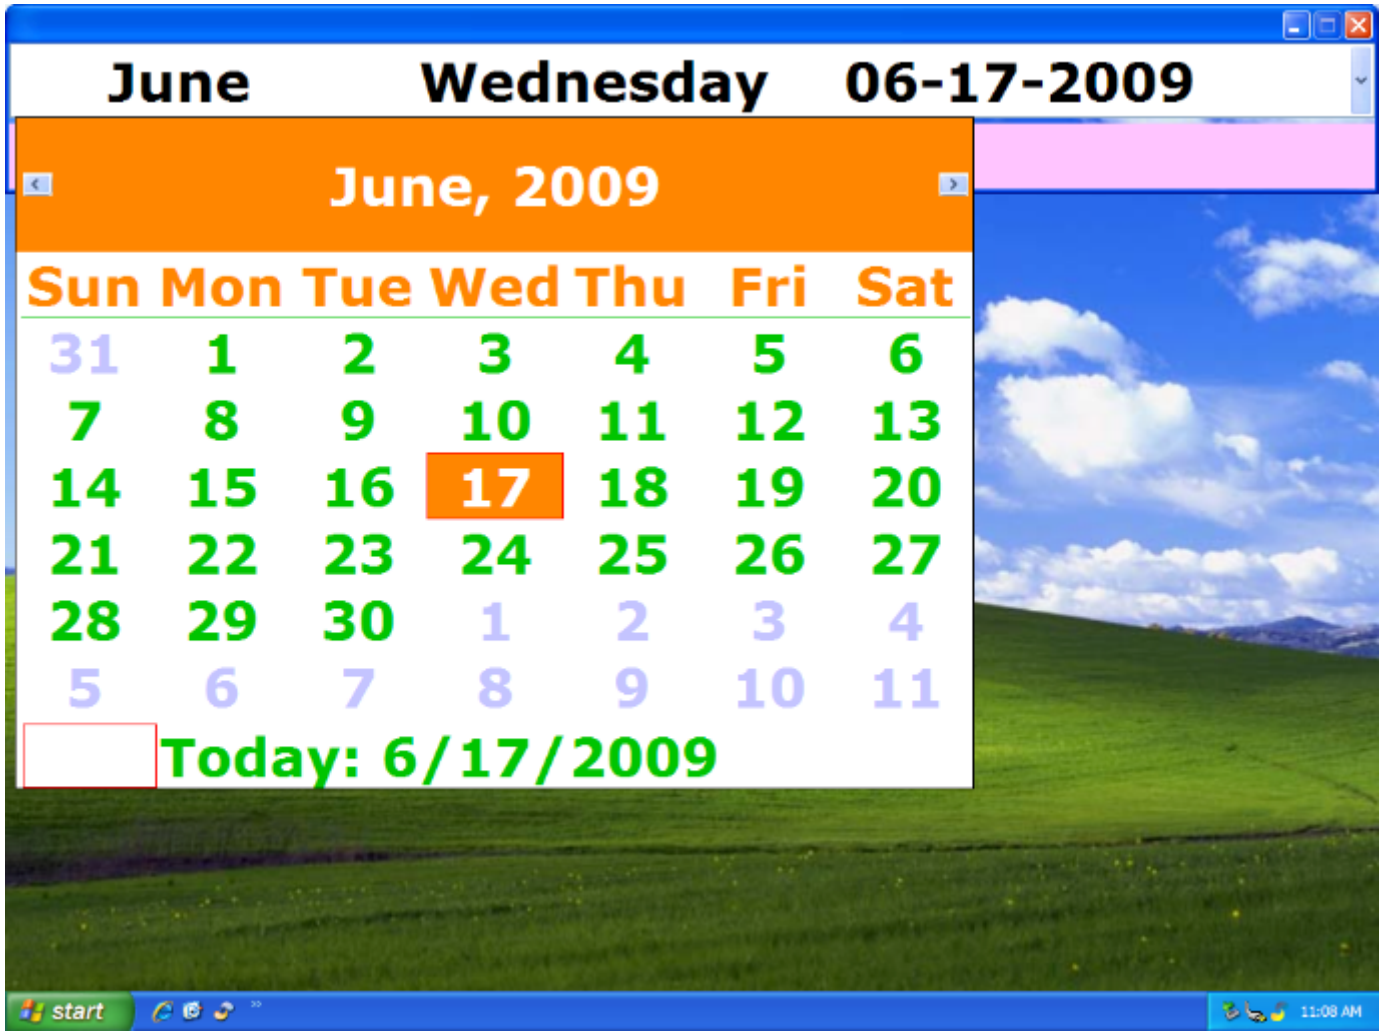
It means that these calendars are not suitable for enterprises at all. Therefore, CE Calendar™ satisfies the demand of enterprises. It is extremely reliable. Besides, it is efficient for enterprises to check various dates.

Selection



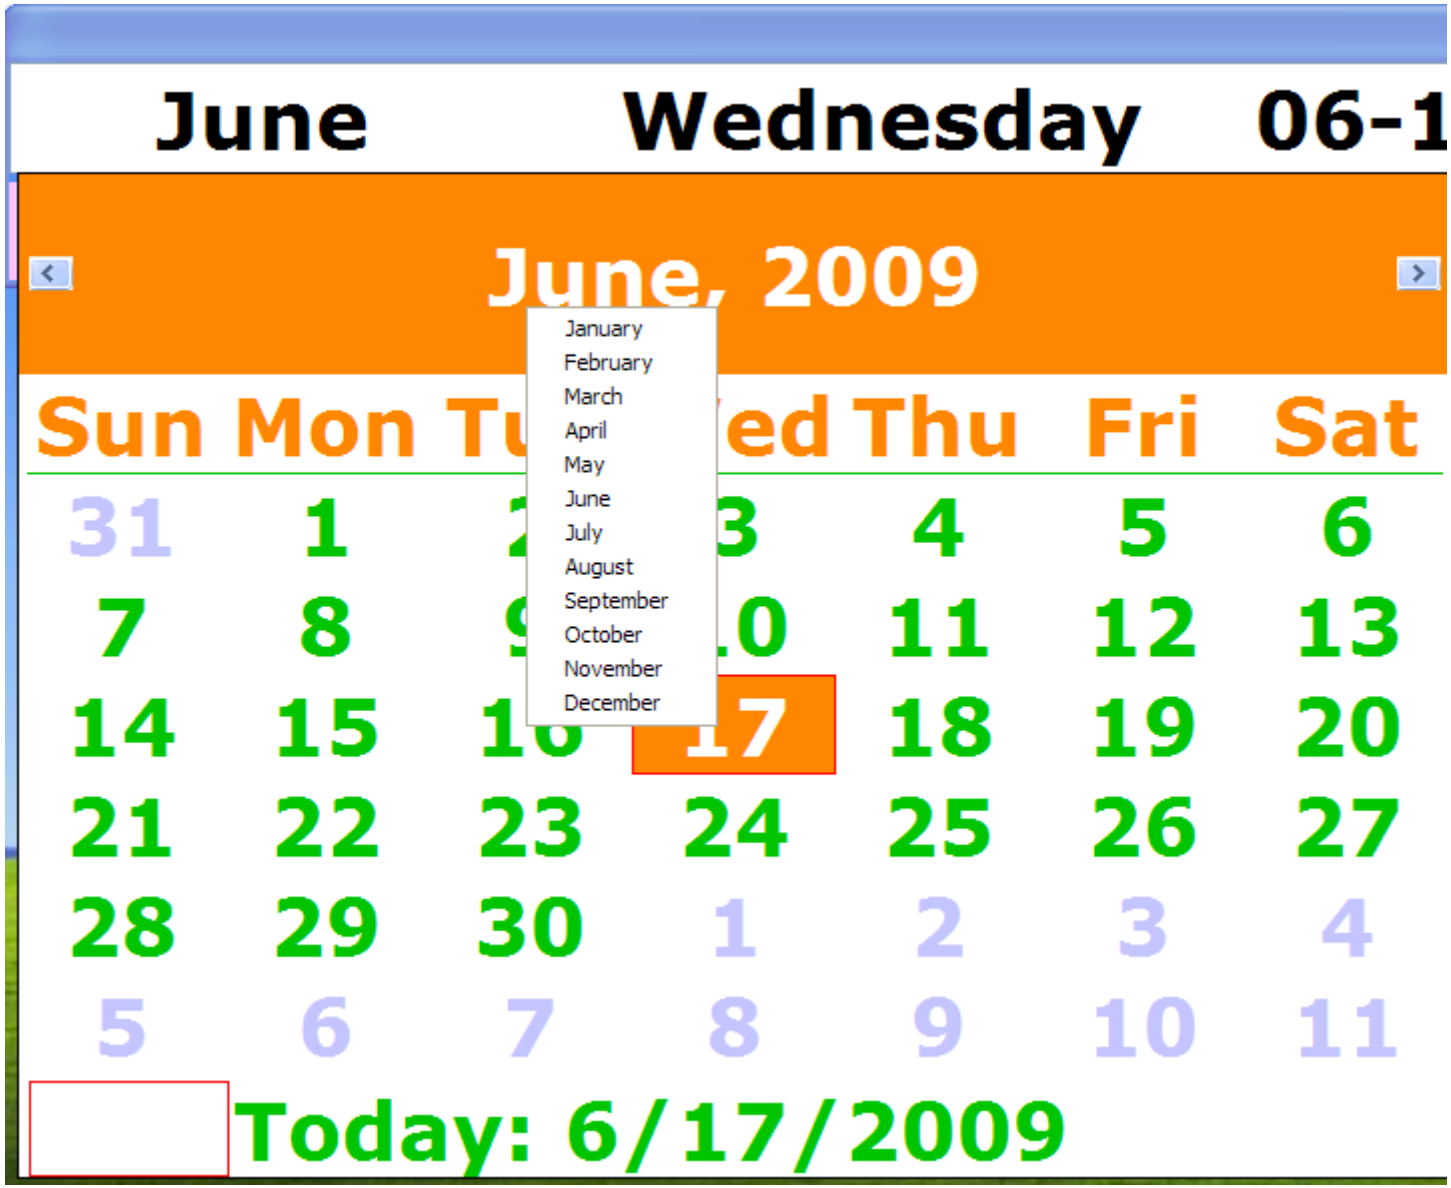
CE Calendar™ is quite different from other calendar software. This calendar is quite large. As a result, you can see the date clearly, and cannot make a mistake. It displays the current date by

default.

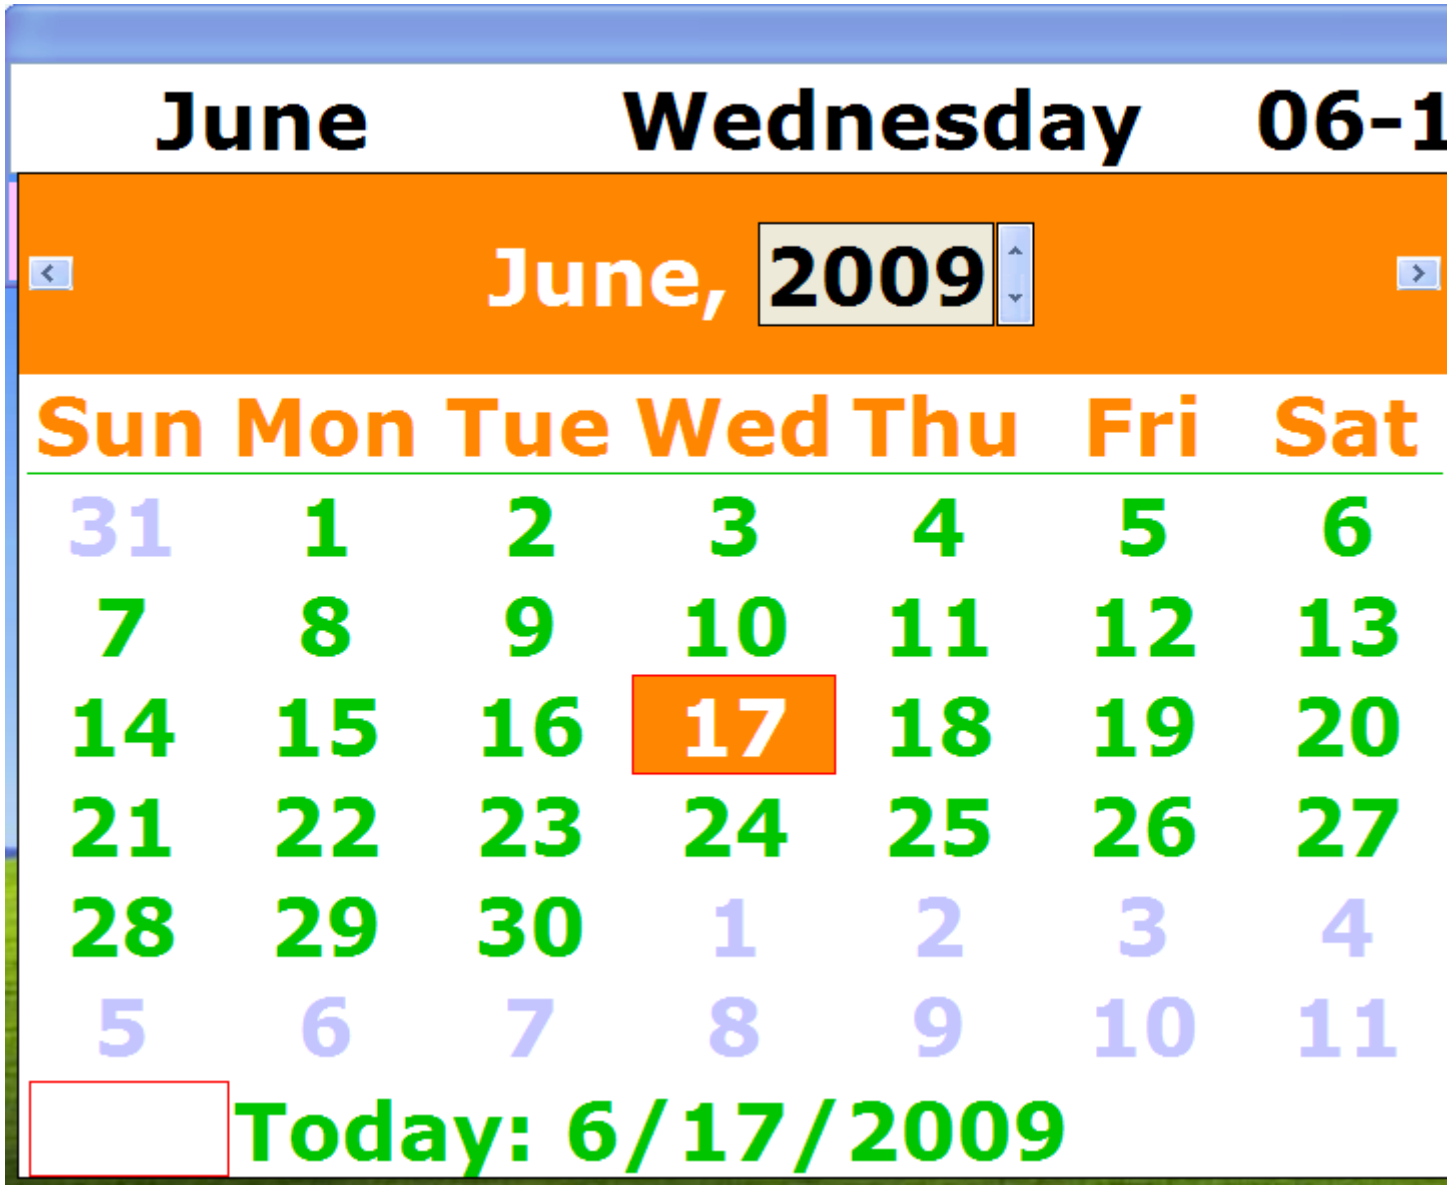


You can open the full screen of the calendar by clicking it. Later, you can select the date you need.

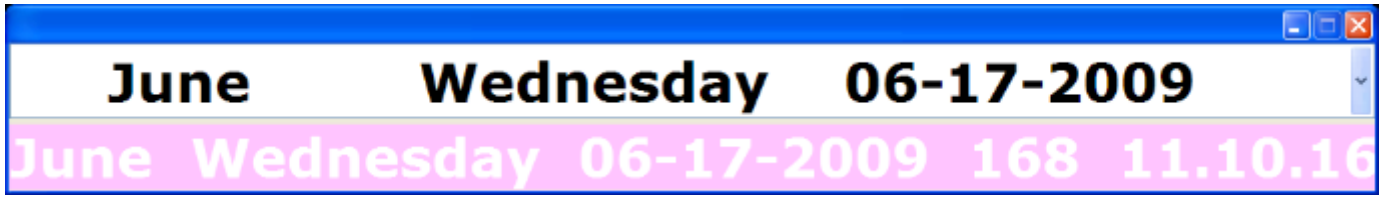
Note: There are two arrow buttons on the left and on the right. You can use them to choose last month and next month with ease.



To select the month efficiently, you can click the month label in the middle. It will list all the months of the year.



Similarly, to select the year efficiently, you can click the year label in the middle. Then, you can select the year through the up or down button.

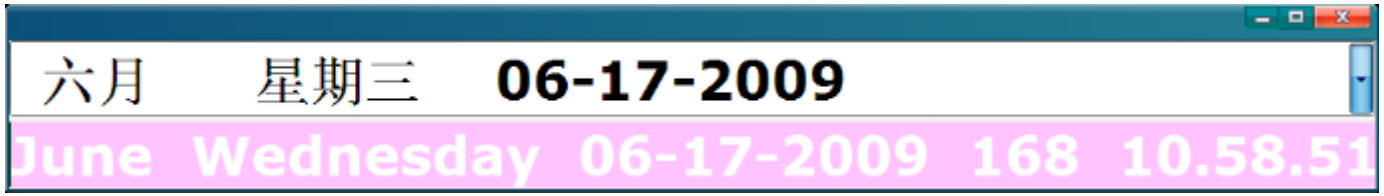


Finally, you can double-click the pink text box below or press **<Ctrl+D>** key. It will display the date you have selected. As a result, you can copy the content and paste it to files efficiently.

The text box also displays the day of year and the current time, except for the date.

Notice: The time format uses “.” instead of “:”.

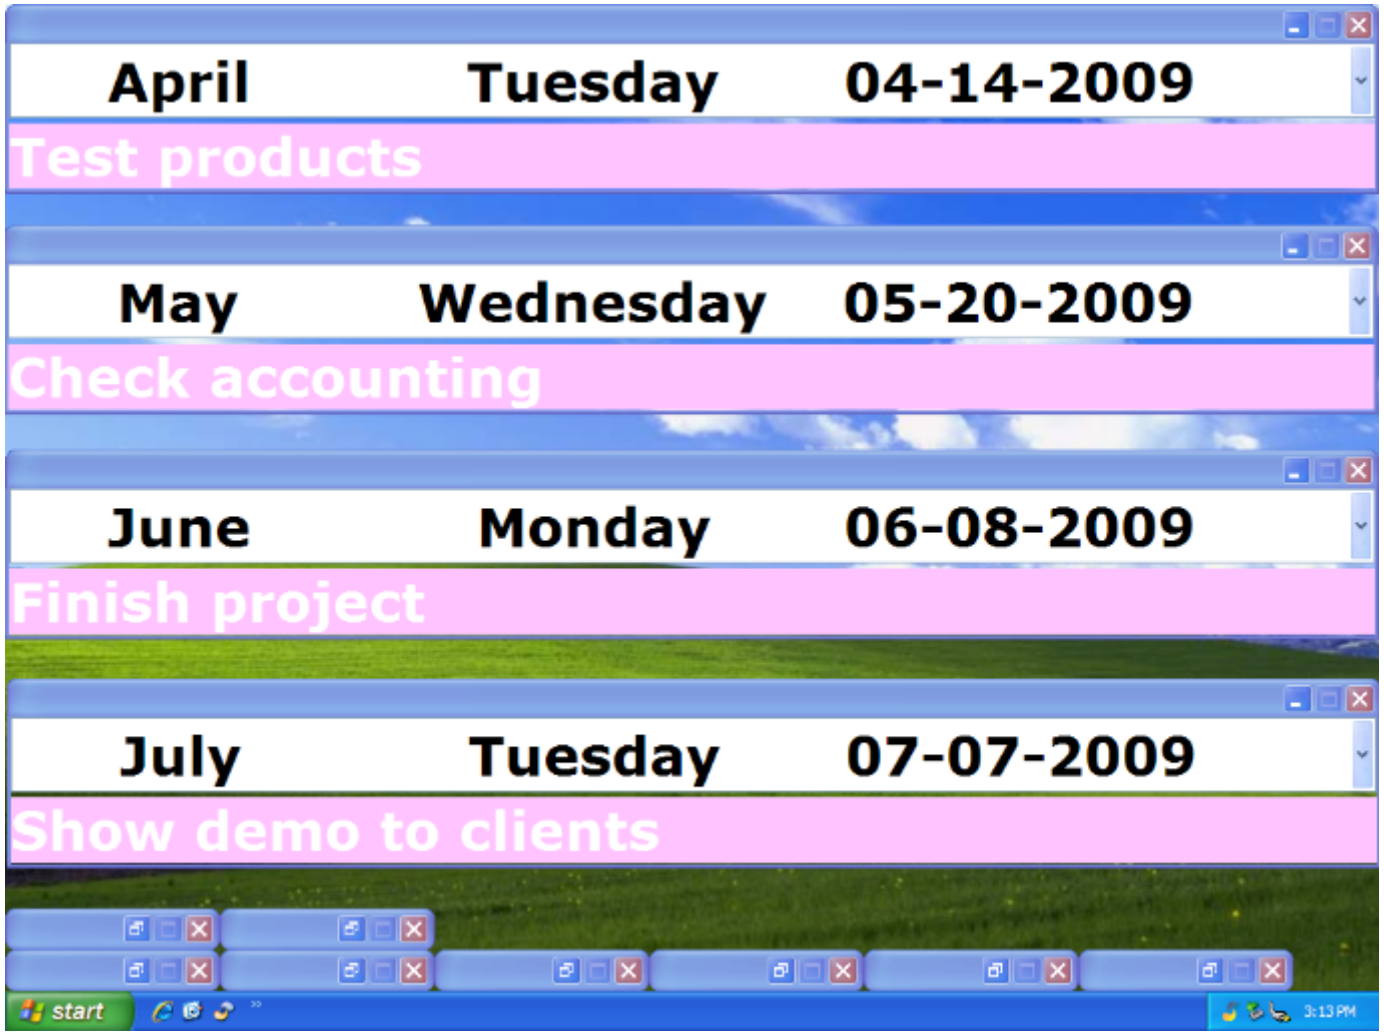
English



The calendar uses local language by default. For example, if the language of your operating system is France, it will shows France words automatically.

You can press **<Ctrl+W>** key to display the date in English if necessary. It helps you use standard international format of the date in the files.

Record



You can write down your content inside the text box directly. CE Calendar™ can stores your content temporally. Besides, CE Calendar™ supports multiple windows. You can start many windows on [Start]

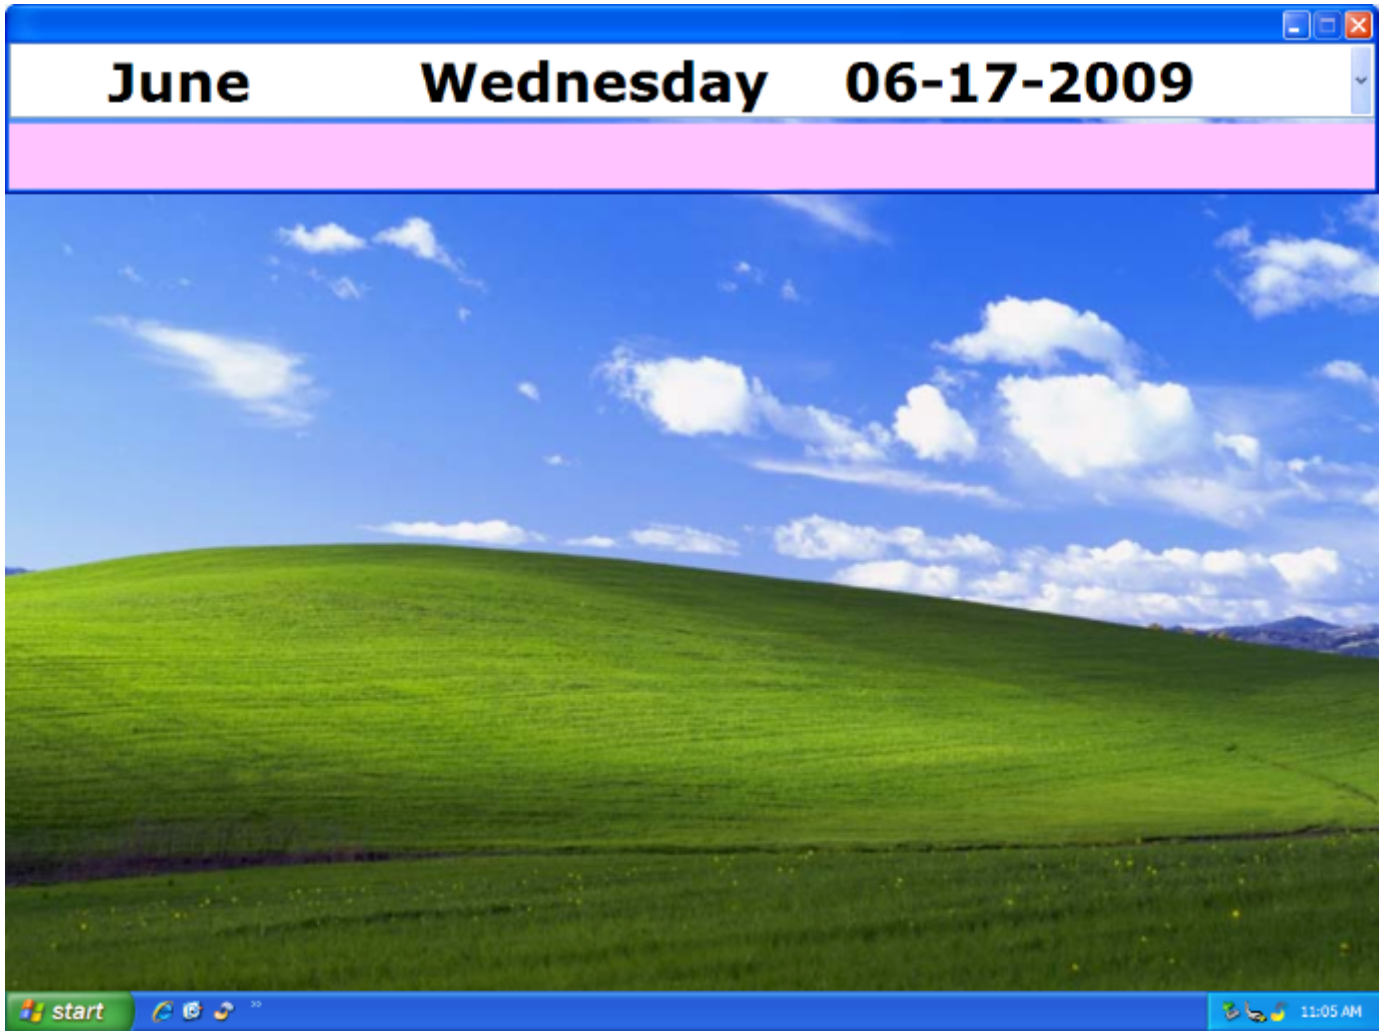
menu. Therefore, you can record the date and important events conveniently. The text box supports one thousand characters.

Notice: CE Calendar™ does not save your contents to the hard disk. It only stores your words temporally. You have to copy and save the words to your files before closing the windows.

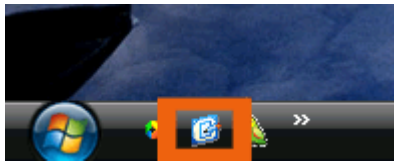
You cannot double-click the window or press **<Ctrl+D>** key after writing down the words in the text box. Otherwise, it will cover your content immediately. You have to display the date in the text box first. Then, add your words behind.

Invisible Mode

Sometimes, you need to leave your computer for a while. You may have to get reports, drink coffee, or go to toilet temporally. Definitely, you do not want others to see your contents, because they may be sensitive.



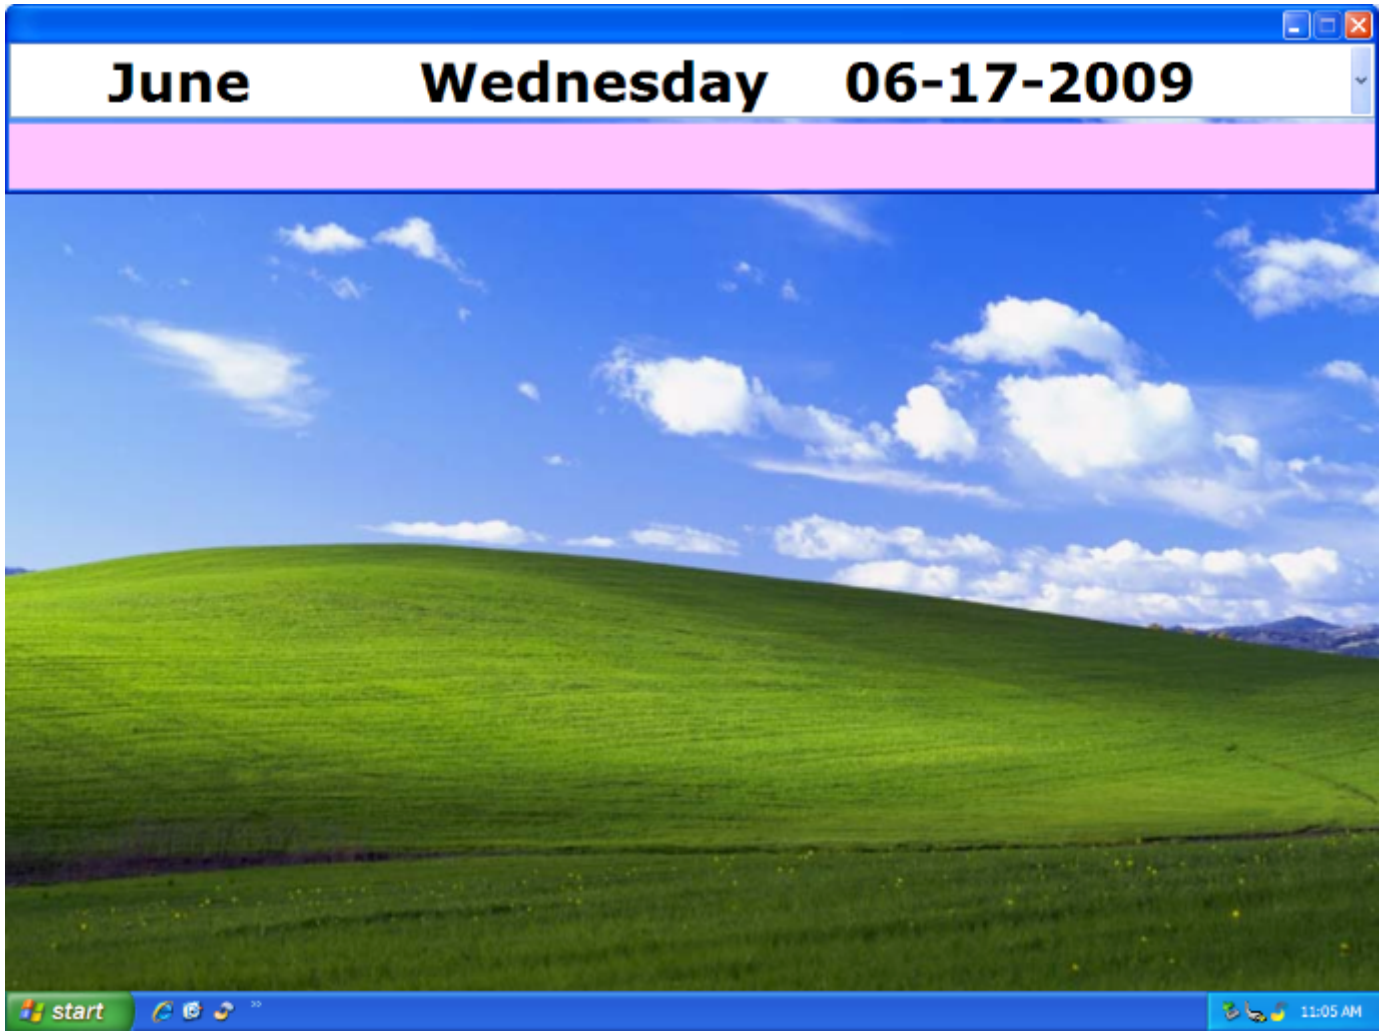
In this case, you do not have to save the contents and exit the program, and then restart the program and continue to edit the contents. Through the invisible mode, you can hide all the windows behind the desktop.



You can simply click the “Desktop” icon on taskbar. Alternatively, you can press **<Win+D>** key.

Tip: **<Win>** is the key, which has the logo of Microsoft.

All the windows will disappear immediately, without leaving any vestige. It is the magic of this software.



You do not have to worry about the contents after the disappearance. The contents will remain inside the windows. After clicking the “Desktop” icon or press **<Win+D>** key again, you can see all the windows for the second time.

Shortcut Key

You can press shortcut keys on your keyboard. Combination keys mean that you keep pressing the first key and then press the second key. For example. **<Ctrl+A>**: Keep pressing **<Ctrl>** key and then press **<A>** key.

<Ctrl+D>: Display the date, day of year and current time in the text box through local language.
<Ctrl+W>: Display the date, day of year and current time in the text box through English.

<Ctrl+M>: Minimize the window.

Security

CE Calendar™ is secure software:

It does not contain any virus, spyware, adware or advertisement. It is clean and pure software.

It does not contain any ActiveX, BHO, toolbar, or other plug-in.

It does not change the homepage or adds contents inside your browser.

It does not use third-party components. All the functions come from original codes.

It is totally offline. Anyway, it will not access the Internet for registration, verification, update, upgrade, error report or other purposes.

It does not change system time at all.

It does not run automatically after you start the computer.

It locks itself when running. Virus or hackers cannot use it to attack the computer.

You can install the software (Installation Edition). Definitely, it has to write basic data in the Windows Registry and hard disk. However, the data will be totally removed from Registry and hard disk after uninstallation.

Quality

CE Calendar™ is high quality software:

It does not have any bug, error or loophole. From programming to testing, it has strict quality control.

It uses C# 2.0 as the programming language to guarantee the security of memory when the software is running. It will never cause *Memory Leak*.

It works stably. It runs without collapse.

It displays the date, day of year and current time accurately.

It works on the background, and does not influence Web pages and other programs at all.

Its interface has been designed carefully. The operating system cannot be hurt even users operate this editor mistakenly and blindly.

It requires tiny resources of CPU and memory.

FAQ

Q: Can CE Calendar™ save the content to hard disk?

A: No. CE Calendar™ just stores your content in the memory temporally. Your content in the text box will be lost after closing the window and exit program. Therefore, you have to copy and save the content to the hard disk by yourself.

Q: Does CE Calendar™ change the system time?

A: No. CE Calendar™ just displays the date. It does not change the system time at all. You do not have to worry about it.

Terms of Use

CE Calendar™ END-USER LICENSE AGREEMENT
By using this software, you are agreeing to the terms of this license.

This End-User License Agreement ("EULA") is a legal agreement between you (either an individual or a single entity) and the mentioned author (Casual Engine) of this Software for the software product identified above, which includes computer software and may include associated media, printed materials, and "online" or electronic documentation ("SOFTWARE PRODUCT"). By installing, copying, or otherwise using the SOFTWARE PRODUCT, you agree to be bounded by the terms of this EULA. If you do not agree to the terms of this EULA, do not install or use the SOFTWARE PRODUCT.

All versions of the SOFTWARE PRODUCT are protected by copyright laws and international copyright treaties, as well as other intellectual property laws and treaties. The sole property belongs to Casual Engine. The SOFTWARE PRODUCT may not be sold in any manner not described herein without the prior written consent of Casual Engine.

1. GRANT OF LICENSE.
This EULA grants you the following rights:

License to.
The SOFTWARE PRODUCT license to enterprises and individuals for commercial and non-commercial purposes in business, commercial and non-commercial environment.

Installation and Use.
You may install and use an unlimited number of copies of the SOFTWARE PRODUCT.

Reproduction and Distribution.
You may reproduce and distribute an unlimited number of copies of the SOFTWARE PRODUCT;

provided that each copy shall be a true and complete copy, including all copyright and trademark notices, and shall be accompanied by a copy of this EULA. Copies of the SOFTWARE PRODUCT may be distributed as a standalone product or included with your own product as long as The SOFTWARE PRODUCT is not sold or included in a product or package that intends to receive benefits through the inclusion of the SOFTWARE PRODUCT. The SOFTWARE PRODUCT may be included in any free or profit packages, services or products.

2. DESCRIPTION OF OTHER RIGHTS AND LIMITATIONS.

Reverse Engineering, Decompilation, Disassembly and Modification.

You may not reverse engineer, decompile, or disassemble the SOFTWARE PRODUCT and change (add, delete or modify) the resources of the compiled assembly, except and only to the extent that such activity is expressly permitted by applicable law notwithstanding this limitation.

Separation of Components.

The SOFTWARE PRODUCT is licensed as a single and complete product. Its component parts may not be separated for use on more than one computer.

Software Transfer.

You may permanently transfer all of your rights under this EULA, provided the recipient agrees to the terms of this EULA.

Termination.

Without prejudice to any other rights, the Author of this Software may terminate this EULA if you fail to comply with the terms and conditions of this EULA. In such event, you must destroy all copies of the SOFTWARE PRODUCT and all of its component parts.

3. COPYRIGHT.

All title and copyrights in and to the SOFTWARE PRODUCT(including but not limited to any images, photographs, animations, video, audio, music, text, and "applets" incorporated into the SOFTWARE PRODUCT), the accompanying printed materials, and any copies of the SOFTWARE PRODUCT are owned by the Author of this Software.

4. LIMITED WARRANTY.

NO WARRANTIES.

The Author of this Software expressly disclaims any warranty for the SOFTWARE PRODUCT. The SOFTWARE PRODUCT and any related documentation is provided "as is" without warranty of any kind, either express or implied, including, without limitation, the implied warranties or merchantability, fitness for a particular purpose, or non-infringement. The entire risk arising out of use or performance of the SOFTWARE PRODUCT remains with you.

NO LIABILITY FOR DAMAGES.

In no event shall the author of this Software be liable for any special, consequential, incidental or indirect damages whatsoever (including, without limitation, damages for loss of business profits, business interruption, loss of business information, or any other pecuniary loss) arising out of the use of or inability to use this product, even if the Author of this Software is aware of the possibility of such damages and known defects.
