

CyraKnow
Adventure in a Small Package

Installing CyraKnow for Macintosh & Windows: A two item drag and drop process (Notes + Audio)

1

Plug your iPod into your computer and open iTunes if it doesn't start up automatically.

2

Open your iPod on your desktop (Mac), or in My Computer (Windows) where it will appear as the next available hard drive.* (See below)

3

Open the "Notes" folder within your iPod.

4

Copy the "**CyraKnow French-Demo**" folder into the Notes folder on your iPod.

5

Copy the "**French Audio**" folder into the main audio Library in iTunes.

Once complete, if you have your iPod set to "Sync all songs and playlists" in the iPod preferences within iTunes, the files will automatically be copied to your iPod. If not, simply select and drag all of the relevant audio files (e.g. all files labeled with the Artist, "CyraKnow") onto your iPod in the Source list in iTunes.

Uninstalling CyraKnow

1

Select all the relevant audio files (e.g. all files labeled with the Artist, "CyraKnow") in iTunes and/or your iPod and delete them.

2

Navigate to the "**Notes**" folder (mentioned above) within your iPod and delete the relevant notes folder (e.g. "CyraKnow French-Demo").

* To Enable your iPod as a hard disk

1

In iTunes, select your ipod in the Source list and click the "Summary" tab.

2

Select "Enable disk use".

When you use your iPod as a hard disk, the iPod disk icon appears on the desktop on the Mac, or as the next available drive letter in My Computer on a Windows PC.

Note: Selecting "Manually manage music and videos" will also enable your iPod to be used as a hard disk.
